

EVALUATION CONTRACT

I am choosing a grade for my project based on these criteria.

For a grade of 90:

1. I only have 2 or fewer errors in the problems or concepts I include in my project. This includes mathematical fluency (when there is an equal sign, the expressions are in fact equal).
2. I will prepare an original product that is neat and professional.
3. I will provide work for all of my problems. This work will be neat and easy to follow. A reader who does not know me or worked with me will be able to read and understand my work.
3. I will be learning on the lower levels of Bloom's Taxonomy: Recall, Understand, and Apply. This means that I will find information and be able to describe what I've learned.

For a grade of 100:

1. All of the problems or concepts I include in my project are accurate and correct with no errors. This includes mathematical fluency (when there is an equal sign, the expressions are in fact equal).
2. I will produce an original type of product that is neat and professional.
3. I will provide work for all of my problems. This work will be neat and easy to follow. A reader who does not know me or worked with me will be able to read and understand my work.
3. I will be learning on the higher levels of Bloom's Taxonomy: Analyze, Evaluate, and Create.

This is the project I will do:

This is the grade I intend to earn:
